

EC CERTIFICATE OF CONFORMITY OF FPC

NB 2079 – CPD – 0013 – 032/ 01/ 11

This is to certify that the factory production control of
ANTI CORROSION PRODUCTS

named:

TERMARUST TR 2100 – TOP COAT

TERMARUST TR 2200 LV – PENETRANT

manufactured by

TERMARUST TECHNOLOGIES

CANADA, 9001 Edison

Anjou (Montreal) Quebec H1J 1T3

production site:

CANADA, 9001 Edison

Anjou (Montreal) Quebec H1J 1T3

have been submitted, in accordance with the applicable requirements of Directive 89/106/CEE relating to Construction Products, to initial inspection of the factory production control (FPC). The results of the performed inspection comply with the requirements of the following harmonized standards:

EN 1504-7

This Certificate is issued following completion of the initial inspection of factory and factory production control specified by Directive 89/106/EEC for the attestation of conformity class 2+ whose specific requirements are mentioned in Annex ZA of the applicable product standard. The validity of this certificate depends on the results of on-site surveillance audits for certified factory production control performed by EuroBulCert with the frequency specified in applicable harmonised standards. This certificate may cease to be valid in the event of changes to the harmonised reference standard or should the manufacturer, without previously notifying EuroBulCert, implement changes to factory production control that end its conformity with the requirements in question.

This certificate authorizes the manufacturer to mark the products, in accordance with the scope of the above mentioned standards, with the following symbol:

Place and date of issue:

Sofia, Bulgaria – May 05th 2011

PCB Manager:
Nikolay Barovski

General Manager:
Stefan Abadjiev
